As a citezen of the US, I would like to take the time to comment on the settlement. First, I think it is a bad idea to settle because they have a proven track record of not living up to their agreements. Second, their products are not helping the economy, they are tightening a noose around it. And third, they ARE a monopoly.

I feel that this administration simply "sold out" to microsoft and its citezens are going to pay the price.

Thank You.
